

WILL IT FIT GUIDE

It's exciting to get new furniture! We want your delivery to run as smoothly as possible, so we've put together this easy to use measuring guide for you.

Step 1 – Packaged and unpackaged measurements

Find both sets of the measurements of your chosen piece of furniture on the Dimensions section, and note them here. Whilst many of our items arrive fully assembled, some of our larger pieces do come in multiple parts.

A Height	
B Width	
C Depth	

A Height	
B Width	
C Depth	

Step 2 – Your furniture's route

Take time to walk your piece of furniture's access route through to your chosen room. Take down pictures from walls, and low lampshades. You might want to cover your wooden floor or carpets to protect them against accidental dirt or scuffs.

Measure narrower spaces and check them against the packaged measurements of your new piece of furniture. The item's box can be rotated to fit through tight turns as long as:

- the ceiling height is bigger than the depth of the box.
- the height of the box is smaller than the width of the gap.

! When you're measuring, take account of obstacles like radiators, or anything fixed to the wall – shelves or handrails for instance. You don't want to hit any light fittings, either. Our delivery teams are not able to lift heavy packages over obstacles above waist height, so check your order will fit around bannisters

Step 3 – Record measurements

Doorways	
A Front door frame height:	
B Front door frame width:	
C Narrowest internal door frame height:	
D Narrowest internal door frame width:	
Hallways	
E Ceiling height at narrowest point:	
F Width at narrowest point:	
G Depth at narrowest point:	

Stairs	
H Narrowest stairway width:	
J Space between top of bannister and ceiling:	
K Floor to ceiling height on tight corners or stair return:	
Lifts	
Doorway height:	
Doorway width:	
Depth of lift:	

Remember, we have four delivery options. They include delivery to your doorstep, or to your room of choice. With Premium Delivery, we'll set up your furniture where you want it and then take the packaging away.

If you want to talk through anything on this guide, our Customer Services team is here to help on 0800 440 2254, 9am–6pm, Monday – Saturday.
